## LED X-Ray View Boxes

### Features:-

- \* The Flat Panel X-Ray illuminator design is truly an innovation.
- \* It uses LED Light Source with Isometric Dot-Matrix Layout which results in High Luminance and Uniformity.
- \* Slim film illuminator only 45mm thick compared to 5"-6" thickness of normal X-Ray Illuminator.
- \* High Brightness of over 4000cd/m<sup>2</sup> - Adjustable Brightness by Digital Regulator.
- \* Blue light is more suited to X-Ray, MRI, CT Scan and other Films.
- \* The Illuminator uses the latest LED Light Source which emits an 9,600 Kelvin color temperature.
- \* This produces a blue-type light more suitable for reading black and white x-ray films.
- \* Greatly reduced eye-fatigue due to High Frequency LED's of over 50kHz.
- \* Adapted with advanced clipping device which features AUTOMATIC ON/OFF which turns on the illuminator when the film is inserted.
